

Bio Conqueror 105

Bio-active concentrate

Bio-Conqueror 105 liquid is a bioactive concentrate that eliminates the actual source of the odor. High fragrance, surfactants, and bacterial concentrations work quickly to clean and consume the source of the malodor.

Concentrated formula

A concentrated water soluble deodorant liquid cleaner with a huge bioactive content: twice that of leading competitors.

Versatile applications

Bio-Conqueror 105 specially formulated to consume urine, waste, food, grease, detergent residues, drains, pet messes & dander. The clear formulation can be used safely on a variety of surfaces to clean and deodorize.

Eco-Friendly

Readily biodegradable, 50-state VOC compliant, water soluble, non-acid, noncaustic, non-flammable, water-based formulation.

6 fragrances that allow you to have your cleaner and air fresheners work together!

Layer fragrances with our other great products that have matching fragrances such as the Wave 3D, Eco Clip 2.0, or Door Fresh.

Application	Dilution	How to Use
Carpet	1:64	Mix 2oz/1gallon of extraction solution.
Grout	1:32	Mix 4oz/1gal of warm water. Apply using a trigger sprayer.

Bio Conqueror 105

Bio-active concentrate

2x the bioactives as leading competitors

Bioactives break down the complex compounds allowing bacteria to feed on the actual source itself! With twice the bioactives in Bio-Conqueror 105 you can ensure the odor is gone with less time and work.

With twice the active ingredients as competing products, you can clean, deodorize, and freshen any area knowing that it'll truly be clean. Don't waste your time or money with other products that only mask odors!

Use Bio-Conqueror 105 in many areas to clean and freshen at the source

Spray directly onto urine

1. Spray Bio-Conqueror 105 straight onto spot (no dilution).
2. Allow to sit for a few moments.
3. Use a sponge to clean the mess and eliminate the odor.

Pet stains

1. Remove any solid material from area.
2. Pour 1-2 oz. of Bio-Conqueror 105 per gallon of extraction solution.

Mop water

1. Remove any solid material from area.
2. Pour 2-4 oz. of 105 per gallon of warm water.
3. Use a mop or sponge to clean and eliminate odor from the area.

Drain cleaning & maintaining

Mal odor emitting from the sink? No worries anymore! The same product that you put in your mop water will kill the cause of the smell from your drain as well!

No other bio-enzymatic product can say this!

Bio-Conqueror 105 works great around other applications as well

General cleaning

Laundry

Carpet/upholstery

Garbage areas

Restrooms
